Reasons for Allowance

The patent to Larranaga et al. (6,091,044) is cited to show a prior art brazing arrangement wherein current passes through the brazing material.

The following is an examiner's statement of reasons for allowance: in addition to the arguments advanced by applicant in his amendment filed on 9/26/2003, the claims are deemed to distinguish over the newly cited patent to Larranaga et al. for the following reasons. Claims 1 and 8 call for electrodes attached to or adapted for attaching to the workpieces, and at least for this reason the claims distinguish over the system of Larranaga et al. wherein the electrodes are not "attached" to the workpiece. Claim 17 distinguishes over the system of Larranaga et al. at least because claim 17 calls for regulating temperature by increasing or decreasing current flow whereas the temperature regulation in Larranaga et al. is accomplished by simply terminating current flow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Clifford C Shaw at telephone number 703-308-1712. The examiner can normally be reached on Monday through

Art Unit: 1725

Friday of the first week of the pay period and on Tuesday through Friday of the second week of the pay period.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Thomas G. Dunn, can be reached at 703-308-3318. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0661.
